

Copy selected node

Version 1.0.0, by Giorgio Bianchini

Description: Copies the selected node to the clipboard.

Module type: MenuAction

Module ID: 650a0ef5-5322-4511-ae86-68bd87b47ecd

This module copies the currently selected node to the clipboard in Newick-with-attributes format. The node can then be pasted e.g. in a text editor or in another tree viewer program.

Note: this module is a shortcut for the *Copy selected node* Selection action module (id debd9130-8451-4413-88f0-6357ec817021) and requires it to be installed to work.
