Apply modules to other tree

Version 1.0.0, by Giorgio Bianchini

Description: Applies the modules that are currently enabled to another tree.

Module type: MenuAction

Module ID: `bb4eb8d4-1925-4f08-8881-c8dd6531e5c4`

This module applies all the modules that are currently active to another tree file. The other tree file is opened in a new window.
