# ↩ Undo

*Version 1.0.0, by Giorgio Bianchini*

**Description**: Undoes the last action.

**Module type**: MenuAction

**Module ID**: `24093e44-fdb0-427a-b00a-21f24fb95898`

This module can be used to undo the last action that has been performed on the plot (e.g. enabling or disabling a module, or changing a module's parameters).
