Open file

Version 1.0.0, by Giorgio Bianchini

Description: Opens a tree file.

Module type: MenuAction

Module ID: `078318bc-907f-4ada-b1e5-171799957b2a`

This module shows an "Open file" dialog that is used to select tree files to open with TreeViewer.

Once a tree file is selected, the installed File type and Load file modules are queried to determine how appropriate they are to opening the file. The most appropriate modules are then used to read the tree file.
